

## REQUEST FOR PROPOSALS

The City of Somerset Wastewater Department will be accepting proposals on the replacement of their pipeline inspection equipment, also known as Camera Equipment. We are asking for a retrofit of our current truck. We will be using the equipment to inspect sewer lines and storm drains. We are asking that the equipment meet the following criteria:

Fit into an existing 2006 Ford E-450

Have a minimum of 1000 ft. of cable

A steerable tractor that will fit a minimum of 6 inch pipe and larger

A pan and tilt camera head

A minimum of 20 gal. wash down system with 25 ft. retractable hose reel

The ability to do sewer and storm lines

Replace the roof mount air unit with heat strip with one of the same size or larger

Rack mount computer equipment

Software with the ability to record video and take snapshots, also print out reports of inspection with all info gathered during inspection

Any other equipment that will be needed in the inspection of sewer and storm lines. (extra lighting for larger storm pipe, wheels or tracks that will give good traction inside clay sewer pipe, etc.)

Please keep all these features in mind when submitting your proposal. Proposals will be opened at 2:00pm on April 9th, 2019 and should be addressed as follows:

Attn: Camera Truck Proposal
